The above referenced public notice was originally advertised on June 16, 2006. The notice inadvertently contained an incorrect description of the fixed pier. The notice described the fixed pier as being 12' X 12'. The drawings submitted by the applicant depicted a 12' X 20' fixed pier. Therefore, the project description should read as follows:

The proposed work consists of the construction of a walkway attached to a fixed pier to a floating dock in the Black River. In detail, the applicant proposes to construct a 12' X 20' fixed pier attached to a 6' X 50' walkway leading from an existing berm, to a 24' X 30' U-shaped floating dock with a 10' X 16' boat slip inscribed. The floating dock will be attached to the fixed pier by a 6' X 12' ramp. The purpose of the proposed work is for the applicants private, recreational use.

The deadline for comment on the revised public notice is

12 O'CLOCK NOON, MONDAY, 4 AUGUST 2006

All other information regarding the public notice remains the same. If you have any questions concerning this revised public notice, please contact Jay M. Thomas at 843-365-4239.
